

Penny Haora
Research Focussed Fellow
College of Nursing and Midwifery

Research interests

- * decolonising maternity care
- * realist synthesis and evaluation
- * Indigenous governance
- * research translation (into policy and practice)
- * research communication
- * community-based maternal & child health care
- * refugee health

I have broad public health and maternity care research and evaluation experience gained in diverse settings. The focus of my research activities is research impact at community level. Mixed methods experience.
